Rhubarb & Rooibos(CF)

This Rhubarb fruit tea brews a delightful light pink colour. Gorgeous sweet and smooth rhubarb flavours pop around the mouth releasing just a hint of sour too.

Peppermint(CF)

Peppermint infusion is made from peppermint leaves and is a well-known health aid with particular popularity for use as a digestive aid and stress reliever.

Gunpowder Chinese Green Tea

A full flavoured Green tea. Described as Gunpowder, due to the ball like shapes the tea leaves are rolled into. Full of antioxidants, green tea has a wide range of health benefits.

Wild Berry (CF)

A really fruity infusion! A balance of wild fruity flavours that will tantalise your taste buds. Sit back, relax and while away the afternoon with sweet, sour and comforting fruity flavours

A rich and soothing blend of herbs, spices and zesty fruit flavours. Enjoy the warmth of the ginger, the sweetness of the liquorice and the tang of the lemongrass.

Darjeeling 2nd Flush

Though Darjeeling is an Indian-grown tea, the leaves are actually Chinese. Our leaves are from the second flush meaning the second harvest of the year, giving a more mature leaf. Rich in flavour, enjoyable any time of day.

Assam Tippy

Named thus for the gold tips that appear on the leaves. A strong, full bodied tea with good flavour, this second flush black tea is from the lowland Assam region in India.

Cherry & Raspberry Infusion(CF)

This infusion unites the aromatic characteristics and delicate flavours of cherries and raspberries, two delicious red fruits which make this blend truly stand out.

Russian Caravan

A blend of smoked, black and oolong teas. The name originates from the 18th century camel caravans that facilitated the transcontinental tea trade, from tea-producing areas to Russia.

Decaf Breakfast Tea (CF)

You can enjoy the great flavour of tea, without the effects of caffeine. This decaffeinated tea offers top class flavour. The decaffeination process ensures less leaf damage, resulting in premium flavour.

What is the difference between a tea and an infusion? - An infusion is any drink prepared by steeping a part of a plant in a hot liquid, usually water. Tea is a type of infusion made using the leaves from the tea plant. Other plants such as peppermint are also prepared as an infusion but are not tea because they don't come from the tea plant. However, many are most commonly known as teas because of the brewing process being the same. We differentiate on our menu those which are not true teas by showing **CF (caffeine free)** beside them.

CF = caffeine free
